

ednet .smart home Starter Kit Security

EN-84299
EAN 4016032439639

ednet.smart home HD Start.Kit Secu.,intern.Version includes 1x HD720p indoor camera, 1x motion sensor and 2x contact sensor, white

You can secure your home using the ednet.smarthome Starter Kit Security. The ednet.smarthome Starter Kit Security includes an IP camera for monitoring indoor areas, a motion sensor, and two contact sensors. Receive notifications about the current status of your sensors – regardless of where you are. You can keep track of whether a door or window has been open or closed using the ednet.smarthome contact sensor. The motion sensor notifies you of any movement detected in your home. You will immediately receive a push notification on your smartphone as soon as the contact sensor detects a status change. This way, you will always know if someone enters your home. You can see who has entered your home using the integrated camera that comes with the Starter Kit. This will give you the greatest possible sense of security. You can configure the settings very easily with the ednet.smarthome app. You can set up a connection to your network and all other components using the ednet.smarthome Starter Kit. Integrate and connect as many devices in your home as you like and make it that much smarter.
