

ednet Voice Controlled Smart Plug - Twin pack

84336
EAN 4054007843364

ednet voice controlled smart plug CEE 7/7 plug, WiFi 2.4GHz, twin pack 230V, max. 2300W

With the voice controlled smart plug, we offer you an easy-to-use smart plug solution for indoor use at an attractive price. The voice controlled smart plug supports both Google Home and Amazon Alexa. Connected devices, such as televisions, lamps, heaters, coffee machines etc. can thus be operated conveniently, no matter whether you are at home or out and about. The free app enables fast and easy control of the smart plugs via your smartphone. In Google Home or Amazon Alexa, the integration of the smart plug takes place via Actions / Skills and is very intuitively feasible. The wireless data transmission works on the basis of wireless LAN according to IEEE802.11b/g/n. The smart plug can be adapted to your individual needs in conjunction with the voice control systems. In this case, timing processes can be taken into account, which ensure that rules can be implemented via the voice control system in combination with other compatible devices and thus make a manual intervention superfluous.

Voice controlled smart plug

- Voice controlled smart plug
- compatible with Google Home and Amazon Alexa
- Conforms to 802.11b/g/n standard
- WiFi, 2.4GHz (802.11b/g/n)
- Frequency range 2.412 ~ 2.484 GHz
- Compatible with Android & iOS
- Free App for iOS and Android
- CEE 7/7 plug
- CEE 7/7 socket
- Input voltage AC 90 ~ 250 V, 50 Hz
- Output current 10 A (max.)
- Wireless IEEE standard IEEE802.11b/g/n
- Working range -10°C ~ +40°C
- LED status display
- Size (D*W*H): 6.6 x 6.2 x 11.0 cm

Package contents

- Voice Controlled Smart Plug - Twin pack
- Manual
